[NEWS] What happened to the Homestuck Discord

https://i.imgur.com/zF7z2C7.png

I got three emails in a row saying my server "Homestuck" broke community guidelines for copyright infringement, and suddenly the server disappeared, even for me.

I think this is a troll taking advantage of an automated system, though, probably not even Hussie. I don't have any information, but I've contacted Partner support (I've been in good standing and in communications with them over the last ten or so years) and hopefully they can fix it.

I strongly doubt it got deleted for good, but I'll let you know if it is. This will be updated ASAP.
